Profile Summary

MCA student with a strong foundation in computer applications and hands-on experience in web and mobile application development. Skilled in Java, JavaScript, Python, Kotlin, and Flutter, with experience building full-stack applications, integrating APIs, working with databases, and developing offline-first mobile solutions. A quick learner with strong problem-solving skills and an interest in exploring new technologies and building practical software solutions.

Education

PSG College of Technology — July 2025 – Present
Master of Computer Applications | CGPA: 7.94 — *Coimbatore, India*

SRM Institute of Science and Technology — July 2022 – May 2025
Bachelor of Computer Applications | CGPA: 9.36 — *Chennai, India*

Swami Vivekananda Matric Hr Sec School — June 2021 – May 2022
12th Grade | 58% — *Kanchipuram, India*

Swami Vivekananda Matric Hr Sec School — June 2019 – May 2020
10th Grade | 81% — *Kanchipuram, India*

Experience

Web Development Virtual Intern — Aug 2024 – Sep 2024
InternzLearn — *Chennai, India*

- Built a personal portfolio website during a virtual internship, gaining hands-on experience in frontend and backend web development using Node.js.
- Implemented basic server-side features, incorporated technical feedback from mentors, and performed systematic debugging.
- Used Git for version control to manage code changes and communicated project progress throughout development.

Projects

CipherSpend | *Offline-First Finance Tracker*

- Developed an offline-first financial tracking application using Flutter, Core Java concepts, and a native Kotlin backend.
- Implemented automated bank SMS extraction using native Android background receivers and custom regex logic.
- Configured local SQLite databases for secure financial data storage and developed user-friendly interfaces.

SubSage | *Full-Stack Subscription Management System*

- Designed and developed a full-stack web application using JavaScript, Node.js, HTML, Express, and MongoDB.
- Built backend logic and RESTful APIs to manage subscriptions, track expenses, and handle user data.
- Integrated the Stripe API for payment processing and implemented secure authentication flows.

MXShare | *Educational Notes Sharing Platform*

- Developed a responsive web application using Next.js for collaborative sharing of educational resources.
- Integrated cloud storage APIs to simplify file management and streamline uploading workflows.
- Incorporated peer feedback to improve file-uploading features and overall application usability.

Technical Skills

Programming Languages: Java, JavaScript, Python, Kotlin, Dart, C
Frameworks: Node.js, Express, Next.js, Flutter, FastAPI
Databases & Tools: MongoDB, SQLite, Git, GitHub, GitHub Actions
Data & Libraries: Pandas, Scikit-learn
Certifications: Programming in Java – NPTEL
